			STAINLESS STEEL	GREEN	26RS A/C	26T6 W/C	26T6 A/C	26T6 W/C

Notes: 1. Approximately December 1, 1958, a color change was made on all 26 Series Units. Ending Ser. #8041949, the color was grey or white as requested. Starting Ser. #8041950, the color is seafoam green. In July, 1963, Models with Stainless Steel Panels were added to the product line. Grey and White Panels are no longer available - request for colors, other than those currently offered should be handled in the field.

2. Panels are not normally stocked. Orders for these parts will be accepted on a "To Order" basis only.

Notes: 1. On 26T Units with Ser. Nos. 4350655, 4350656, 4350658, 4350659, 5116505 thru 5116524, 5140058 thru 5140060, 5133914 thru 5133922, the latches are located 2 1/2" from the edge of the front panel instead of the standard 2". In order to use the standard panel for these machines, it is necessary to cut-off two ears on the frame.

2. When replacing front panels on W/C units, the sponge rubber filler block located in the top center of the panel should be removed.
