

6G,L CONTROL PANEL

The following chart indicates the replacement parts as contained in the Control Panel.

Also shown is the "matching compressor" model used with each Control Panel.

These Control Panel components are used with 6G40 thru 6L125-608,638,648 compressor models starting 1963. Also 6G40 units used this Control Panel.

When ordering the replacement parts, always refer to the compressor model nameplate or the control panel nameplate, not the condensing unit nameplate.
